

**Annual Scientific Meeting Program October 18-20, 2019**

**Florida Academy of Pain Medicine (FAPM)  
American Academy of Regenerative Orthopedic Medicine (AAROM)  
with pre-conference workshops**

**PRE- CONFERENCE WORKSHOPS**

**Friday, October 18, 2019**

8:00 a.m. – 5:00 p.m. (8 hours of CME)

Workshops run concurrently so chose one.

**Workshop A:**

**Regenerative Injection Therapy and Ultrasound MSK Workshop with Ultrasound Guided Interventional Procedures.**

**Correlation of physical findings and with ultrasonography: shoulder, knee, hip; demonstrations with PRP, and chemical injectates under ultrasound guidance.** (Participants scan each other, faculty demonstrates injections; for scanning hips on each other participants need to wear high cut briefs).

Faculty: Felix Linetsky, MD, Michael Scarpone, DO, Charlie Mahl, MD,FACS, FICS,  
Raul Monzon, MD

## **Workshop C:**

### **“Where is the Future for Pain Care?” — Getting at the Root Causes**

**8:00 AM – 5:00 PM**

This Course is designed to look into the future of where we are heading with pain care, and much of that emphasis is on getting at the root causes of the pain. Medical literature supports integrative multidisciplinary pain care as having the best LONG TERM outcomes.

We invite you to come and learn from evidenced-based understandings how to assess a person in pain from the root cause approach and to design a treatment plan in accordance with that assessment.

This year’s faculty are all internationally recognized teachers, and they will cover the following topics:

1. Integrative Health overview: includes medical, surgical, medication, nutrition, activity and sleep, spirituality, social support, self-care, mind-body therapies, and complementary/alternative approaches.
2. How the nitro-redox system can offer lasting change to control inflammation, the source of medical illnesses.
3. Healthy Nutrition is key to controlling inflammation and chronic pain problems.
4. Appropriate supplements can assist in restoring and maintaining a state of health.
5. Fascial treatment through manual therapies can change both physical and mental states.
6. Photodynamic Regenerative Injection and Shockwave therapies can offer more permanent solutions to physical aspects of musculoskeletal disorders.
7. Intravenous Photodynamic therapies can control Lyme, fibromyalgia, chronic fatigue and other viral and bacterial mediated illnesses and inflammations.
8. Mind-body techniques that offer self-care to people in pain.
9. How Spirituality plays an important role in pain and health.
10. How you can implement these integrative treatments into your practice now.
11. Where does Addiction fit in?
12. Medical cannabis, anyone?

Faculty will include: Steve Wheeler, MD; Carol Davis, DPT, EdD; Salaheldin Halasa, MD; Michael Weber, MD; Michele Weiner, DO; Bert Ray, MD; Jennifer Miele, MS; Rhonwyn Ullmann, MS.

**Annual Meeting Lecture Series**  
**Saturday, October 19, 2019**

- 7:00 – 8:00                    Registration & Breakfast in the Exhibit Hall
- 8:00 – 8:15                    Welcome: Stanley Dennison, MD, President FAPM; Felix Linetsky,  
President AAROM.
- Program at a Glance: Ultrasound Guided Procedures in Pain & Dysfunctions, Interventional  
Cadaver Procedures, State Mandated 2h Opioid Course , New Treatments  
& more.
- 8:15 – 9:00                    Newer minimally invasive interventional spinal techniques. SIJ Fusion,  
Laser Facet Ablation, Endoscopic Discectomy  
Abraham Rivera, MD
- 9:00 – 9:45                    Cognitive Behavioral Therapy  
Albert Ray, MD
- 9:45 – 10:15                   Exhibit Hall Break
- 10:15 – 11:00                   New and advance interventional therapies for cancer pain  
Dennis Patin, MD
- 11:00 -11:30                   Peripheral Nerve Stimulation  
TBA
- 11:30 - 12:00                   Amniotic Fluid versus Umbilical Cord Blood for RIT a review of 200 cases,  
Susanti Chowdhury MD
- 12:00 – 1:00pm               Luncheon & Presentation speaker TBA
- 1:00 – 1:30                    FAPM Annual Business Meeting
- 1:30 – 2:15                    New Concepts in use of Platelet Rich Plasma (PRP) Charlie Mahl  
MD.FACS FICS.
- 2:15 – 3:00                    DRG stimulation for low back pain  
Ajay Antony, MD

- 3:00- 3:30 Exhibit Hall Break
- 3:30 – 4:30 Pain Treatment with Regenerative Injection Therapy  
Michael Scarpone, DO  
Formication (insects crawling across or underneath the skin) treated with RIT two patients case presentations - Felix Linetsky MD,
- 4:30 – 5:10 How to Identify the Correct Referrals for a Patient from a Primary Care  
TBA
- 5:10- 7:00 Reception in exhibit hall

### **Sunday, October 20, 2019**

- 7:30 – 8:00 Registration/Breakfast in the Exhibit Hall
- 8:00 – 8:45 Do You Really Want to Get Into the Medical Cannabis Business  
Michele Weiner, DO
- 8:45 – 9:30 Functional Medicine for Chronic Pain to Implement in Your Practice –  
Steve Wheeler, MD
- 9:30 – 10:00 Exhibit Hall Break
- 10:00 – 12:00 Prescribing Controlled Substances Opioids  
Obligatory, state approved, two hours opioids course  
Joshua Lenchus DO
